Dear Hiring Manager,

I am currently enrolled at George Brown College in Computer Programmer Analyst. I am pleased to respond to the career advertisement on your career site for IBM Security Application Developer - Internship.

I am hardworking, consistent, creative, can work under pressure, and passionate about everything I do. I have no problem working with teams and doing work individually. I have strong decision making and problem-solving skills. I also have excellent communication skills and 3 years of customer service experience. I have been interested in applying to your company to share what I've learned, and to gain more knowledge to understand the scope of my field. I am familiar with Windows system and proficient with MS Office, MS Visio, MS Visual Studio, Java, JavaScript, HTML, C#, and MySQL. I am confident that all these qualifications make me eligible for the opportunity advertised.

Thank you for your time and consideration to review my resume. I look forward speaking with you soon to review my qualifications in more detail. I can be reached at 647-838-9006 or giloerika@gmail.com.

Best regards,

Erika Kathleen Gilo
